

To make this Linear Art you need to find a piece of graph paper and draw these lines with a straight edge:

$$y = x + 2$$

$$y = -x + 2$$

$$y = x - 2$$

$$y = -x - 2$$

$$y = x + 6$$

$$y = x - 6$$

$$y = -x + 6$$

$$y = -x - 6$$

Then connect these points:

(6,6)

(-6,6)

(-6,-6)

(6,-6)

Once connected trim the connected lines and color as desired.
